Rationale given by Department of Public Works Director, Dan Santos this project will rebuild the tennis courts and add the lines necessary for a pickleball court  
Open Public Hearing

Aaron Webb asked for support of this item, pickleball is a growing sport, we have about 300 members, and we are growing; twelve courts would be ideal.

Tom Gillooly came to support the pickleball courts; we play at the HYCC in the winter and are a very social group. Over half the voting members of the group are 55 and over, but it is also being taught to middle school children. Low impact, easier on the joints, we would really like dedicated courts. Please support this item.

Kerry McNamara the growth of the sport needs dedicated courts that would allow more people to play the sport. That is one of the biggest reasons to support this item.

Bob Powers this is a sport for men and women. This is a very social sport; there is a need for more courts, something like this for the entire community. It is social recreational activity.  
Close public hearing

**Councilor comments and questions:**

The Adult center is discussing pickleball courts [Patti Machado, Recreation Director, explained this sport is definitely a quality of life sport, we are working with the group to expand this sport to do tournaments] How many courts are available that can convert [Santos, currently 6 courts; there is a difference, the lines of the courts and the nets are lower for pickleball] How does the conversion of the courts work [some will be tennis only and some will be pickleball] Is there someplace for people to take a lesson [Machado, yes, we have a certified pickleball teacher at the HYCC] I am in support of this. We are a diverse community, 70 is the new 50, the sessions are jam packed, there is a great need for this, I will support this item.

Upon a motion duly made and seconded it was

Councilor comments and questions:

Refresh our memories on the 4.5 million funding [varsity baseball field, bleachers, turf]. Why are we at Lowell Field? I will be looking for those results next year. Clarify what is included in phase two [phase 2 is the balance of the natural turf, on the high school side] clarify phase one road improvements; [those improvements were to the parking lot and drainage] maintenance of the fields will that be incorporated [hope to keep them in division one level] this is just for the engineering and planning [yes it is]
